## THE EQUITABLE

LIFE ASSURANCE SOCIETY OF THE U. S. 120 BROADWAY, NEW YORK

Of all the Equitable's sixty years of public service, 1918 was by far the most important and successful.

During that year the greatest epidemic in America's history carried off over 400,000 people, most of them in the young and healthful period of life.

Of the \$27,799,026 distributed in death claims by the Equitable in 1918, to the beneficiaries under its policies, \$5,200,000 was directly due to the epidemic of Influenza and Pneumonia, emphasizing the urgent need of life insurance and of securing it at an early age.

In 1918 the Equitable distributed to its policyholders in Death Claims, Endowments, Dividends and other benefits, \$65,412,490. It also promptly met all the obligations imposed by the Government during the great war. Liberty Bonds to the amount of \$54,000,000 were purchased during 1918. To do this it was necessary for the Society to borrow \$23,000,000.

The following figures are from the Society's 59th Annual Statement, which will be furnished on request:

OUTSTANDING INSURANCE, Dec. 31. 1918, \$1,924,538,578 Increase over 1917, \$169,669,670 \$273,223,559

ASSETS, December 31, 1918.....

Through GROUP INSURANCE the Equitable, in 1918, increased the protection furnished by employers to their employes to the extent of \$80,000,000. The value of this protection was

strikingly illustrated during the epidemic. There was a marked gain in policies giving beneficiaries Monthly Incomes for life, as well as in Business Insurance, and in policies to cover Inheritance Taxes.

There was also a large increase in life policies providing for (1) waiver of premiums if totally disabled, (2) continuous income during total disability, and (3) double payment in case of accidental death.

As an extension of this branch of Equitable service, policies are now issued giving complete accident and health coverage, and providing for weekly incomes for disabilities caused by accident and
